

ÜÇ TOPLANANLI TOPLAMA İŞLEMİ

Aşağıda verilen toplama işlemlerini örneğe uygun olarak boyayarak yapınız.

Örnek:

The example shows a vertical addition problem with three addends. The first row has 5 red apples, the second row has 2 yellow apples, and the third row has 4 green apples. To the right of each row is a blue arrow pointing to a number: 5, 2, and 4. A plus sign is placed to the left of the 4. A horizontal line is drawn below the 4. Below the line, the number 1 is written under the 5 and another 1 is written under the 4. Below the entire problem is a row of 16 outline drawings of apples, with the first 5 colored red, the next 2 colored yellow, and the next 4 colored green, matching the example.

The problem shows a vertical addition problem with three addends. The first row has 3 outline drawings of apples, the second row has 6 outline drawings of apples, and the third row has 7 outline drawings of apples. To the right of each row is a blue arrow pointing to a number: 3, 6, and 7. A plus sign is placed to the left of the 7. A horizontal line is drawn below the 7. Below the line, there are two dotted lines for the answer.

The problem shows a vertical addition problem with three addends. The first row has 2 outline drawings of apples, the second row has 4 outline drawings of apples, and the third row has 8 outline drawings of apples. To the right of each row is a blue arrow pointing to a number: 2, 4, and 8. A plus sign is placed to the left of the 8. A horizontal line is drawn below the 8. Below the line, there are two dotted lines for the answer.

The problem shows a vertical addition problem with three addends. The first row has 7 outline drawings of apples, the second row has 3 outline drawings of apples, and the third row has 8 outline drawings of apples. To the right of each row is a blue arrow pointing to a number: 7, 3, and 8. A plus sign is placed to the left of the 8. A horizontal line is drawn below the 8. Below the line, there are two dotted lines for the answer.

The problem shows a vertical addition problem with three addends. The first row has 9 outline drawings of apples, the second row has 2 outline drawings of apples, and the third row has 4 outline drawings of apples. To the right of each row is a blue arrow pointing to a number: 9, 2, and 4. A plus sign is placed to the left of the 4. A horizontal line is drawn below the 4. Below the line, there are two dotted lines for the answer.

The problem shows a vertical addition problem with three addends. The first row has 4 outline drawings of apples, the second row has 3 outline drawings of apples, and the third row has 6 outline drawings of apples. To the right of each row is a blue arrow pointing to a number: 4, 3, and 6. A plus sign is placed to the left of the 6. A horizontal line is drawn below the 6. Below the line, there are two dotted lines for the answer.
